Chemical Geology 134 (1997) 329–330

CHEMICAL GEOLOGY
INCLUDING
ISOTOPE GEOSCIENCE

Contents Volume 134, 1996/1997

Special issue: Melt Processes and Exhumation of Garnet, Spinel and Plagioclase Facies Mantle. 2nd Orogenic Lherzolite Conference, Granada, 25 August-5 September 1995, by M.A. Menzies, J.-L. Bodinier, F. Frey, F. Gervilla and P. Kelemen (Guest-Editors)

Vol. 134, Nos. 1–3

Preface 1

Research papers

Evolution of the Horoman Peridotite (Hokkaido, Japan): Implications from pyroxene compositions
E. Takazawa, F. Frey, N. Shimizu and M. Obata 3

Metamorphic evolution of ultrahigh-pressure garnet peridotites from the Variscan Vosges Mts. (France)
R. Altherr and A. Kalt 27

Geochemistry of garnet peridotite massifs from lower Austria and the composition of deep lithosphere beneath a Palaeozoic convergent plate margin
H. Becker 49

The nature of the lithospheric mantle near the Tancheng–Lujiang fault, China: an integration of texture, chemistry and O-isotopes
Y.G. Xu, M.A. Menzies, D.P. Mattey, D. Lowry, B. Harte and R.W. Hinton 67

Metasomatic interactions in the lithospheric mantle: petrologic evidence from the Lherz massif, French Pyrenees
A.B. Woodland, J. Kornprobst, E. McPherson, J.-L. Bodinier and M.A. Menzies 83

Infiltration metasomatism at Lherz as monitored by systematic ion-microprobe investigations close to a hornblendite vein
A. Zanetti, R. Vannucci, P. Bottazzi, R. Oberti and L. Ottolini 113

Geochemistry of metasomatism adjacent to amphibole-bearing veins in the Lherz peridotite massif
E. McPherson, M.F. Thirlwall, I.J. Parkinson, M.A. Menzies, J.L. Bodinier, A. Woodland and G. Bussod 135

Silicate glasses in spinel lherzolites from Yemen: origin and chemical composition
G. Chazot, M. Menzies and B. Harte 159

Differentiation of platinum-group elements (PGE) and of gold during partial melting of peridotites in the lherzolitic massifs of the Betico–Rifean range (Ronda and Beni Bousera)
K. Gueddari, M. Piboule and J. Amossé 181

Trace element and isotopic characterization of mafic cumulates in a fossil mantle diapir (Oman ophiolite)
M. Benoit, M. Polvé and G. Ceuleneer 199

Vol. 134, No. 4

Research papers

Early diagenetic partial oxidation of organic matter and sulfides in the Middle Pennsylvanian (Desmoinesian) Excello Shale Member of the Fort Scott Limestone and equivalents, northern Midcontinent region, USA
J.R. Hatch and J.S. Leventhal 215

Origin of the granodiorite in the forearc region of southwest Japan: Melting of the Shimanto accretionary prism
H. Shinjoe 237

Nd and Sr isotopic constraints on the source of Alleghanian granites in the Raleigh metamorphic belt and Eastern slate belt, southern Appalachians, U.S.A.
D.G. Coler, S.D. Samson and J.A. Speer 257

Productivity-induced sulphur enrichment of hydrocarbon-rich sediments from the Kimmeridge Clay Formation
E. Lallier-Vergès, J.M. Hayes, M. Boussafir, D.A. Zaback, N.P. Tribovillard, J. Connan and P. Bertrand 277
Rare-earth diffusion in zircon
D.J. Cherniak, J.M. Hanchar and E.B. Watson 289
Stepped-heating of carbonates and carbon-bearing quartz grains
S. Boyd, I.P. Wright and C.T. Pillinger 303
A simple method for the precise determination of ≥ 40 trace elements in geological samples by ICPMS using enriched isotope internal standardisation
S.M. Eggins, J.D. Woodhead, L.P.J. Kinsley, G.E. Mortimer, P. Sylvester, M.T. McCulloch, J.M. Hergt and M.R. Handler 311

Erratum
Erratum to "Secular trends in the melting depths of mantle plumes: evidence from HFSE/REE systematics of Archean high-Mg lavas and modern oceanic basalts" [Chem. Geol., 126 (1995) 29–42]
Q. Xie, T. Campbell McCuaig and R. Kerrich 327

Contents Volume 134 (1996/1997) 329
